

I'M PROTESTING, I'M WARNING

I'm frightened because our life is endangered today

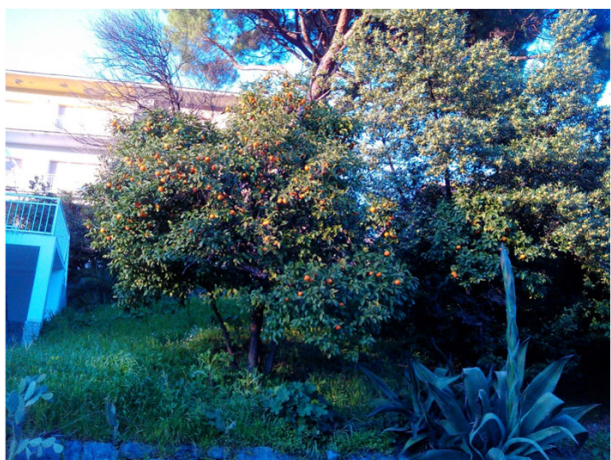

I'm against those things...

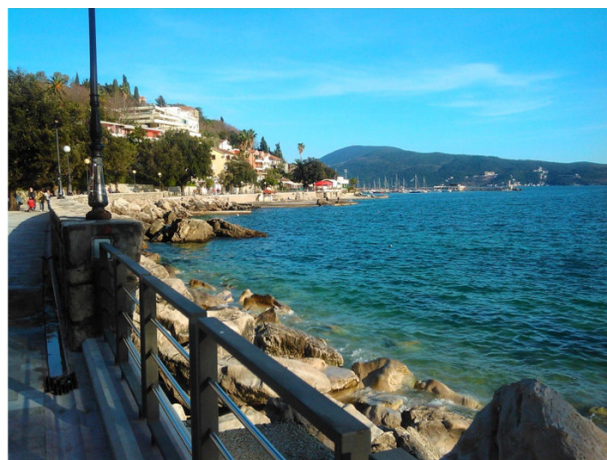

That is product of our carelessness...

We could enjoy the green

Beauty of gardens hoisting high

Therefore I ask to return the life to my city
And save the grass and water

The nature and childhood should be saved!

“...I'm surprised that the Sun can set down,
Although this beauty it can never find elsewhere”

Martina Vojinović (14)
