

## AWAKENED CONSCIENCE

Secondary school students from Pljevlja gather on March 22nd with their biology, chemistry and Russian language teachers to join the school yard cleaning activity.

The work has started...

The area behind the school stands is filled with garbage thrown by unconscious students.

The first biodegradable bag is filled up.

The green areas of the High school were also cleaned.

The garbage was placed in its right place.

The teachers and students, happy after the successfully completed task, hoping that the next year there will be less work.
