

Novosti - septembar 2020.

VELIKI USPJEH MLADIH EKOREPORTERA IZ CRNE GORE NA KONKURSU "YOUNG REPORTERS FOR THE ENVIRONMENT (YRE) 2020"

Ponosno objavljujemo da su među 62 finalista ovogodišnjeg takmičenja za najbolje mlade ekoreportere nagradjena tri rada koje su poslali učesnici iz Crne Gore: Jovana Damjanović (Opatovac, Podgorica), Maria Kazimirova (Arcadia Academy, Ljubovici) i Nikola Kovačević (Osnovna škola "Savo Ilić", Dobrota).

Jovana je osvojila drugu nagradu za članak (11-14 godina) "Da li plaće Suza Evrope?" (mentorka: Danka Odalović). Maria je dobila specijalno priznanje za ekološku fotografiju (11-25 godina) "Počivaj u miru, Priroda", a Nikola je sa Luisom Martinsom iz Portugala osvojio specijalno priznanje za članak u kategoriji međunarodne saradnje (11-14 godina)

Podsjećamo da su u finalu bila još tri rada čiji su autori: Dajana Metić (Srednja ekonomsko-ugostiteljska škola, Nikšić), Dmitriy Churin (Gimnazija Kotor) i Mila Miketić (Gimnazija "Petar I Petrović Njegoš", Danilovgrad).

Preko 275.000 učesnika učestvovalo je ove godine na međunarodnom takmičenju "Young Reporters for the Environment (YRE) 2020" i pripremili su preko 16.000 radova za nacionalna takmičenja. Broj i kvalitet odražavaju kontinuiranu motivaciju i predanost mladih ekoreportera širom svijeta, uprkos izazovima izazvanim pandemijom COVID-19. Za predselekciju je poslato 182 rada iz 31 zemlje.

Radovi nagradjeni ove godine pokazuju veliki novinarski talent učesnika i duboko razumijevanje složenih ekoloških problema koji pogađaju njihove lokalne zajednice. Međunarodni žiri je svoju procjenu temeljio na odabiru tema učesnika, njihovim razmišljanjima o tome kako se tema povezuje s ciljevima održivog razvoja i njihovim ukupnim novinarskim vještinama. Nagradjeni radovi predstavljaju neke od najboljih omladinskih ekoloških novinarskih priloga u svijetu danas.

Međunarodno takmičenje YRE ne bi bilo moguće bez truda nacionalnih operatora YRE, čiji su naponi omogućili hiljadama nastavnika i učesnika da učestvuju na ovogodišnjem konkursu.

Ovogodišnji sastanak međunarodnog žirija održao se od 15. do 17. septembra preko zoom platforme. Žiri je temeljito procijenio svaki rad u samom izboru i dodijelio nagrade za 1., 2. i 3. mjesto, kao i specijalna priznanja, na osnovu njihovog tehničkog kvaliteta, nivoa istraživanja, originalnosti i urednosti. Međunarodni žiri čine profesionalci iz ekološkog novinarstva, korporativne društvene odgovornosti i obrazovanja za održivi razvoj. Članovi žirija 2020 bili su: Bernard Combes (United Nations Educational, Scientific, and Cultural Organization - UNESCO), Anne Vela-Wagner (Mars Wrigley Foundation), Torvald Jacobsson (Independent Institute for Innovation, International Institute for Industrial Environmental Economics - Lund University), Christopher Slaney (Freelance Journalist), Siiri Mäkelä (UNEP, Kenya), P.J. Marcellino (Portuguese-Canadian filmmaker, and a former YRE. Head of Development, Anatomy of Restlessness Films. Founder, Baobab Film Collective), James O'Hagan (Reporter in Euronews' Dubai bureau), Filipa Murta (YRE Alumna from Portugal) i Sasha Karajovic, (Foundation for Environmental Education (FEE) Executive Board member with responsibility for YRE, National coordinator in Montenegro).

Svi radovi mogu da se pogledaju na slijedećem linku YRE Competition's Exposure page .

Slijedi lista nagradjenih radova:
